Search Superfund Site Information

In 2014, the Superfund Program implemented a new information system, the Superfund Enterprise Management System (SEMS). Efforts to migrate data to SEMS and to enhance data quality control are progressing. The Program will continue to rely on the final CERCLIS data set (dated November 12, 2013, which reflects official end of Fiscal Year 2013 Program progress) for public reporting until a complete and accurate SEMS data set is available. The current estimate for refreshing the content on this page is September 30, 2014.

Disclaimer:

The CERCLIS Public Access Database which contains a selected set of "non-enforcement confidential" information has been retired. The EPA is transitioning to the Superfund Enterprise Management System, or SEMS. SEMS include the same data and content as CERCLIS. As SEMS is made operational, nightly data refresh routines will be reestablished. This webpage will be updated to reflect the status of data updates.
